

SAUNA LFX SPEC SHEET

LFX-S-9.6-CTXX-2835-Z3-120-24V-CV-H-1-HT-RMTLWL10

The LED Flex Strip for Sauna rooms is a high-quality lighting solution specifically designed to withstand the extreme heat conditions of sauna environments. With a rating for use in ambient temperatures up to 100 degrees Celsius, this flexible strip is built to endure the intense heat and humidity in saunas. The LED technology ensures efficient and long-lasting illumination, while the flexible design allows for easy installation and customization to fit any sauna room layout. The strip's heat-resistant construction and reliable performance make it an ideal choice for creating a soothing and visually appealing atmosphere in sauna rooms without compromising on safety or durability.

FEATURES
